

TSCA DECLARATION OF CONFORMITY

The United States Environmental Protection Agency (EPA), which is considered the counterpart of the European Chemicals Agency (ECHA), established the final rules of the Toxic Substances Control Act (TSCA) Section 6 (h) on 6 January 2021.

With these, regulations were issued to reduce exposure to PBT chemicals as listed, which became legally effective in Mar/2021. Two of the five chemicals are covered in Europe already by REACH / SVHC or POP (as of June 2021). The three other substances are not yet officially listed in SVHC-list and will be furthermore declared within this declaration separately.
