

## PFAS DECLARATION OF INTENT REACH COMPLIANCE PFAS

Per- and polyfluoroalkyl substances (PFAS), sometimes called "forever chemicals," is a group of thousands of substances widely used in many industries. Due to growing awareness of health and environmental concerns, PFAS are facing increasing scrutiny worldwide. In-force and proposed measures set restrictions or requirements on PFAS use in some jurisdictions, and due diligence may be necessary to meet legal obligations, ESG commitments, and/or business requirements.

To whom it may concern,

We hereby send you information related to PFAS; this communication applies to all products sold or otherwise placed on the market by **Camtec Power Supplies** prior to the signature date of this declaration.

That all our products can contain any PFAS chemicals now. A 100% identification of all components used in our products is impossible because our supply chain cannot guarantee for proper data yet. We are working together with our supply chain on a solution to achieve PFAS free products. The European Community announced a legal specification for PFAS for 2025 but no earlier. Our target is to have PFAS free products when the law enter into force or better earlier.

Please do not hesitate to ask for further information under [sales@camtec-gmbh.com](mailto:sales@camtec-gmbh.com).
