

1907/2006/EC REACH Position Statement

To Whom It May Concern:

Regulation 1907/2006/EC - the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) concerns substances on their own, in preparations or as substances in articles. The products of Camtec Power Supplies GmbH (CPS) are classified under REACH as articles containing substances not intended for release. CPS has evaluated its products and shipping materials and has determined that, apart from those listed in Annex 1, none of the two hundred and twenty-three (223) currently identified Substances of Very High Concern (SVHC) are above the 0.1% threshold (by weight) published on 17 January 2022. In addition, CPS has evaluated its product components and shipping materials and has determined that none of the restricted substances listed in the current version of Annex XVII under Article 67 of REACH are included.

CPS will continue to monitor any changes to Directive 1907/2006/EC and will carry out its due diligence by obtaining the necessary evidence from its supply chain on the compliance of its component products and shipping materials.

The information contained in this letter about CPS products is based on information provided by material suppliers and manufacturers of assemblies used by CPS to produce these products. CPS therefore makes no independent representations or warranties, express or implied, and assumes no liability in connection with the use of this information.

A handwritten signature in blue ink, appearing to read 'Oliver Walter', is written over a diagonal blue line that extends from the bottom left towards the top right of the page.
